The Slow Roll Future

The Slow Roll newsletter will become more interesting. It will now be in color and members and events photos can be added and seen in their newsletter.

This can only be done on our website. If we were to have it printed in color it would be way to costly to mail out to the SVF members. The cost now for the black and white newsletter, has gone to extremes for the club, it is our biggest monthly expense. It has averaged \$400 a month for the printing service and stamps.

We will notify the members, that wish to provide us with their E-MAIL address, when the SLOW ROLL is up on the website. Its not necessary to have an e-mail address if you have a browser to get on our website to see the latest newsletter.

The Slow Roll will be done in Adobe PDF format. Adobe has a free reader to download if you do not have this.

For those that have computers, and are not on the Internet, should be able to get a free internet provider. I believe NetZero, Yahoo, and Juno offers those services. If you do not browse the internet maybe you have a friend or family member that can print out the Slow Roll for you.

We believe the Slow Roll will be more interesting, and more so when members provide us with photos of interest to put in your newsletter. Articles again will always be welcome.

The April Slow Roll will be the last printed newsletter mailed out to the members.

All future Slow Roll will be archive on a Compact Disc.

For those that wish to be notified when a new Slow Roll is up to view, please e-mail your address to [Gene Peterson at pvbikes@gwest.net](mailto:Gene.Peterson@pvbikes@gwest.net).
